

# Roadmap Of C Language

1. Introduction of Programming and Programming language ?
2. Machine Language, Assembly language, Procedural Oriented, Object Oriented Programming, Natural language ?
3. Introduction of Compiler and Interpreter
4. Introduction of C language, Feature, Application
5. How to learn any programming language ?
6. History of C language
7. First Program of C language
8. Understanding of Basic Structure of C language
9. Variable, Constant
- 10.Token, Keyword, Identifier
- 11.User Input
- 12.Operator
- 13.Typecasting and Expression
- 14.Inbuilt Function (Math,String)
- 15.Conditional branches (if -else, switch, break)
- 16.Loop (for,while, do while), escape statement
- 17.Array (single,multidimensional array)
- 18.String Handling
- 19.Function
- 20.Pointer
- 21.Structure and union
- 22.File handling
